Shakeer Shaik
Frontend Developer
Chennai, Tamil Nadu, India | +91 95532 59698 | shaikshakeer1207@gmail.com
Portfolio: https://vercel.com/shakeer-shaik/portfolio
LinkedIn: https://linkedin.com/in/shakeer-shaik

Professional Summary

Frontend Developer with 2+ years of experience building responsive and performant web applications using Angular. Expertise in state management (NgRx), RESTful API integration, and scalable UI architecture.

Skills

Frontend:
- Angular, RxJs, NgRx, HTML5, CSS3, SCSS, Bootstrap, Angular Material, TypeScript, JavaScript (ES6+), Responsive Web Design

Backend:
- Node.js, Express.js, PostgreSQL, TypeORM, REST API Development, JWT Authentication

Tools & Testing:
- Postman, Swagger, Chrome DevTools, Jasmine, Karma

Version Control & Workflow:
- GitHub, Bitbucket, SVN, Agile/Scrum, JIRA, VS Code, npm

Projects

Enginero – Srinsoft Technologies (March 2024 – Present)
- Engineered modular, **role-based interfaces** for 3D construction model data visualization using Angular 15.
- Developed and maintained **scalable, reusable UI components**, improving development speed by 30%.
- Applied **unit testing** using Jasmine and Karma to ensure robust component behavior and reduced regressions.
- Implemented **secure authentication and access control logic**, enhancing user data protection.

Heliosz – Srinsoft Technologies (August 2023 – May 2024)
- Built **interactive dashboards** with Chart.js to visualize complex sales and operational metrics.
- Integrated **multi-role dynamic menus** for scalable permission-based navigation, improving UX and maintainability.
- Enhanced component reusability and state management for better performance and reduced code duplication.

Timesheet Management System – Personal Project
Live: https://shakeershaik/timsheet-app.vercel.app
Stack: Angular 18, NgRx, Signals, Node.js, PostgreSQL (NeonDB), TypeORM, CI/CD
- Developed a full-stack timesheet management system using Angular 18 with standalone components and Signals for optimized reactivity.

- Implemented advanced state management using **NgRx** for scalable and predictable frontend architecture.
- Secured the backend using JWT authentication and Node.js with Express, connected to **NeonDB** via **TypeORM**.
- Enabled core functionalities including work hour logging, role-based access control, task assignment, and report tracking.
- Deployed frontend on **Vercel** and backend on **Render**, ensuring high availability and CI/CD automation.

Experience

Junior Programmer Analyst
Srinsoft Technologies Pvt. Ltd., Chennai | June 2023 – Present

- Developed responsive web applications using Angular and React with reusable components.
- Improved performance through lazy loading, code splitting, and caching techniques.
- Built and integrated RESTful APIs with Node.js, Express, and PostgreSQL using TypeORM.
- Collaborated within Agile teams, coordinating with UI/UX designers and product managers.
- Used Postman and Swagger for API testing and documentation.
- Debugged complex UI issues using Chrome DevTools ensuring cross-browser compatibility.

Education

Bachelor of Technology – Mechanical Engineering
Narayana Engineering College, Gudur, Andhra Pradesh | Graduated: 2022 | CGPA: 7.04

Certifications

Angular Developer Certification – Infosys Springboard (2024)
Covered Angular fundamentals, services, routing, state management, and component-driven development with real-world application builds.
